

A Robot Can't Do Squat... by itself.

That's why you need more than just a robot vendor! Motoman Robotics understands and offers complete process solutions. Do we have robots? Oh sure... Well over 100 unique models. But what makes us different? We have the specific process knowledge experts and real world experience-directly or through our very select group of Motoman system partners- to make our robots productive for your company in an unlimited variety of applications.

Are you constrained by a two-year ROI for automation capital? No problem... we can meet or exceed your constraints because we don't have to re-invent the wheel each and every project. Two years later, sit back and watch your profits grow!

- ✓ Process expertise
- ✓ Energy efficient
- ✓ Integrated vision
- ✓ 3-year warranty
- ✓ In-plant maintenance agreements
- ✓ Life cycle management programs

Call us when you want to improve your manufacturing productivity. You'll get an efficient, powerful solution that will help you put money in the bank!
